- 2006-08: Research Project, Philip's University, Hannover, Germany
- 2007-08: Research Project, Program Coordinator, Endodontics, University of Hamburg, Germany
- 2010-2012: Assistant Professor, Department of Endodontics, University of Pennsylvania, USA
- 2016-18: Ph.D. Thesis, School of Dentistry, Ruhr University, Bochum, Germany

Workshop Endodontics: use of CTBC in daily dental practice (X-Ray / DTV)
ORA: 9.00-13.00

The introduction of cone-beam computed tomography (CBCT) and three-dimensional visualization of the anatomy represents an important new development in the practice of endodontics and in improving the diagnosis and treatment planning of endodontic cases.

The main advantages and limitations of CBCT are covered, based on latest evidence and illustrated with clinical cases.
